Anti-odour wastewater treatment

Enzyme- and probiotic-based product recommended for the preventive maintenance and curative treatment of unpleasant odours in pipes and on surfaces. It contains an odour absorber based on renewable raw materials that destroys odors and leaves a pleasant minty fragrance. It also prevents deposits and blockages in pipes.

ADVANTAGES

- Effective at low temperatures
- Destroys and prevents unpleasant odours
- Leaves a fresh minty fragrance
- Eliminates organic deposits in pipes and prevents blockages due to the continuous action of enzymes and probiotics
- Non-aggressive for pipes

FIELDS OF APPLICATION

- All pipes
- Surfaces with unpleasant odours
