

AZYMIX

Concentrated pipe treatment

Liquid enzymatic detergent for maintenance of pipes. Prevents clogging in any type of pipes (food or sanitary) and hydrolyses all organic residues for improved flow. This product is compatible with grease traps and septic tanks.

ADVANTAGES

- Effective at low temperatures
- Deep cleaning action
- Removes organic residues in pipes and prevents clogging thanks to the continuous action of enzymes
- Positive impact on grease traps and septic tanks
- Non-irritating for users and hazard-free for pipes
- Positive impact on the environment (discharge of pre-treated waste water)

FIELDS OF APPLICATION

- Maintenance of food and sanitary pipes

DIRECTION OF USE

Perform these steps after all sanitation/disinfection steps of the room(s) where drains are located.

First application/start-up

- 1 Prepare a mixture of 16 ounces of AZYMIX in a bucket or container with between 1 quart and 1 gallon of water 59-130 ° F (15-55° C)
- 2 At the end of service, apply one dose in each outlet to ensure effective treatment

Follow-up/maintenance

- 1 Prepare a mixture of 2.5 ounces of AZYMIX in a bucket or container with between 1 quart and 1 gallon of water 59-130 ° F (15 -55° C) and apply twice per week
- 2 Remove the drain cover, grates, etc and slowly pour the mixture around the drain. Do not pour directly into the drain
- 3 Replace the drain cover, grates, etc. Do not pour any liquids (water, detergents, sanitizers, etc) in the drain until the next cleaning cycle to allow the enzymes the maximum amount of contact time

	Temperature	59-130 ° F (15 -55° C) max.
	Action	-
	Concentration	-
	Contact time	Inject at the end of service

Note: This product can also be applied automatically using a programmable peristaltic dosage system.
