Application

Enzywine R10 is an powder enzyme product applied to the filtration system in the wine sector (red wine, tannic,...)

- Specific enzymatic formulation, which ensures the irreversible transformation of organic waste in industry : proteins, cellulose and starch.
- Its adapted enzymatic cocktail ensure an in-depth cleaning and in full safety for materials.
- Enzywine R10 is particularly recommended to ensure the maintenance of membranes in order to preserve optimum outputs filtration. Ideal for red wine, tannic.
- Without phosphate.

Use

Wine filtration.

**Dosage /
Instructions**

from 0,5 to 2 %

Closed circuits – CIP :

Recommendation :

- Prepare a solution of Enzywine R10 diluted in hot water (50°C).
- Let circulate the solution in the material to be cleaned during 30 to 120 minutes according to the nature of the substrate and the importance of filling.
- Finish the circulation with a disinfecting or an acid solution during 15 to 30 minutes. Refer to the range and protocols of Realco.

Suggestions :

- The enzyme cleaning can be preceded by an alkaline cleaning. Refer to the range and protocols of Realco.

Advantages

For more than 30 years, REALCO has been developing cleaning solutions respecting the environment. The enzymatic technology developed by REALCO is the best performing solution on the market to protect our environment and the user (patented technology : n°EP1025052, n° EP/1987125B1).

- Increased cleaning performance ;
- Deep and soft cleaning due to the enzymatic action ;
- Non aggressive to the users, nor to the material ;
- Prevents pipe blocking due to its continuous action inside the pipes ;

Active Matters

Among others :

Oxygen-based bleaching agents
Phosphonates
Polycarboxylates
Enzymes

Physical-Chemical Properties

Aspect	Powder
Color	White
pH 1 %	10,6±0,5
Volume massa	1,120±0,0150 kg/l

Precautions

Product developed for professional use only. It is recommended to use the product for the applications defined here above.

For more information on our product, we invite you to consult the safety data sheet that can be provided to you on a simple request.

**Article code
Packaging
Palletization**

POU0925
1 x 10 kg
52 buckets / pallet

Storage

Storage in the packing of origin closed, between +4°C and +25°C.
Deadline of optimal use : 2 years from the date of delivery.
