CG-42-220

Mineral EP Gear Oil ISO 220

CG-42-220 is a mineral-based extreme pressure gear lubricant. It is formulated to enhance protection in applications requiring heavy load carrying abilities. CG-42-220 can be used for the lubrication of heavily loaded enclosed gear sets and in some worm gear applications.

ATTRIBUTES

- Protects against wear
- Long fluid life
- Resists water contamination
- Excellent oxidative resistance

TYPICAL LUBRICANT PROPERTIES

CG-42-220 Grades	100
Viscosity @ 40°C	102
Viscosity @ 100°C	12.3
Viscosity Index	112
Flash Point °F (°C)	500 (260)
Pour Point °F (°C)	-25 (-32)
Copper Corrosion, 24 Hr	1b
Rust Test (D665)	Pass
Demulsibility	40/39/1
