

## **Industrial Transportation Product Guide**

## Maximizing your fleet's cleanliness to maximize your organization's reputation.

DuBois realizes that your vehicle fleet's cleanliness makes a "first impression" to your customers which can directly impact your organization's reputation in the marketplace and community. A clean appearance portrays newness and safety. This in turn helps promote consumer confidence and immediately fosters the view that your organization is committed to providing superior service. More importantly, cleaning is an integral part of any standardized fleet maintenance program and has been shown to reduce overall maintenance cost.

DuBois knows that your business is not about washing vehicles. Our staff of large vehicle cleaning experts can help you achieve the results you need with a variety of cost effective and highly efficient cleaning solutions.

- **Maximize your cost savings** – Our SuperSat®/Total Power® solution is 20-30% less expensive than traditional detergents
- **Maximize your cleanliness** – Our superior cleaning technology out cleans the competition.
- **Maximize your performance** – Integrate our cleaning solutions into your overall maintenance program to keep your fleet running at peak efficiency.
- **Maximize your environment** – We are committed to helping you ensure a sustainable environment and offer a variety of lean, green and clean solutions.

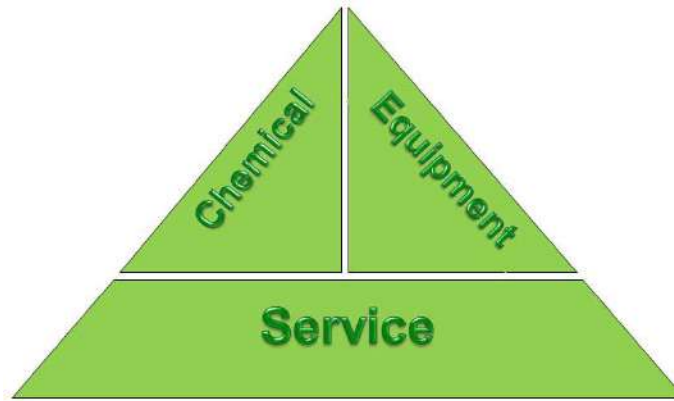

**What are you waiting for? Let DuBois help you MAXIMIZE YOUR REPUTATION today!**

# Industrial Transportation Product Guide

Since 1920, DuBois has been a leader in providing innovative chemical solutions. We are committed to helping our customers improve their operational processes, reduce their overall costs and meet their sustainability goals. DuBois is uniquely qualified to be your single source transportation cleaning provider. We provide local service through our trained sales and technical service representatives. Our specialty chemicals are manufactured and warehoused throughout the United States and Canada.

Our cleaning programs integrate chemistry, equipment and service to deliver optimum results while achieving total operational cost reduction for our customers. We sell a wide range of transportation cleaning products, including alkaline cleaners, acids, degreasers and specialty products.

DuBois manufacturing plants are ISO 9001:2000 and ISO 14001:2004 certified.

## The SuperSat® Total Power Advantage

**Total Power** is a breakthrough all-in-one detergent concentrate for use in the SuperSat® System. The SuperSat® Custom Detergent System is a powerful vehicle wash system that automatically makes a long lasting supply of detergent - on site and on demand! This detergent process reduces waste and promotes efficiency by using the water on your site to create a finished product.

### SuperSat® and Total Power offer:

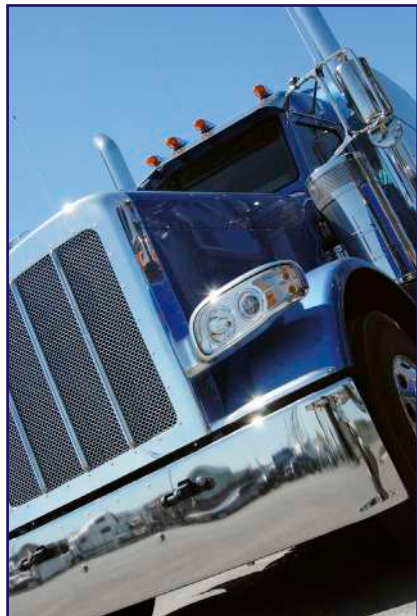

- **Lower costs:** SuperSat's concentrated detergents save on manufacturing, shipping and warehousing costs.
- **Superior cleaning technology:** Total Power outcleans the competition at a typical savings of 20-30% versus traditional liquid detergents.
- **Automatic detergent process:** The blending system comes in custom sizes and can be charged with product to wash for weeks without adding additional powder! Total Power has unmatched simplicity and ease of use.
- **Compact packaging:** No more empty drum disposal, no totes to move in and out of your operation- just compact and easy-to-handle recyclable boxes.

## High Alkaline Cleaners

### DuBois Total Power

DuBois Total Power is a concentrated, heavy duty, powdered alkaline cleaner for cleaning vehicle exteriors. Total Power penetrates tough soils from vehicle surfaces. When used with the patented SuperSat® system, Total Power provides impressive cleaning power while reducing costs.

### DuBois Total Power XLT

DuBois Total Power XLT is a concentrated, heavy duty, powdered alkaline cleaner for cleaning vehicle exteriors. Total Power XLT penetrates tough soils from vehicle surfaces. When used with the patented SuperSat® system, Total Power XLT provides impressive cleaning power while reducing costs. Total Power XLT is specifically designed for use on polished aluminum.

### Render-SBG

Render-SBG is a heavy duty, liquid alkaline cleaner for cleaning a wide variety of tough soils (*see in-set for additional details*).

### Transit Kleen

Transit Kleen is a heavy-duty, highly alkaline, liquid cleaner for washing the exterior of transportation vehicles. Transit Kleen penetrates and lifts the toughest soils from vehicle surfaces leaving a clean surface, free of residue. It removes heavy road film at low use dilutions for economical vehicle washing. With regular use, Transit Kleen will brighten aluminum. Transit Kleen is phosphate-free and does not contain any SARA 313 reportables.

## Moderate Alkaline Cleaners

### Brilliance

Brilliance is a moderately alkaline, brushless road film remover for transportation vehicles. Brilliance contains a special blend of inhibitors that give maximum corrosion protection to all metal surfaces, including polished aluminum finishes, between washes. This product contains phosphate-free water-softeners that tie up hard water salts, preventing scale formation in operating solutions, which, also, along with inorganic builders and wetting agents, ensure a free-rinsing surface.

## Render-SBG Facility and Vehicle Cleaner

**Render-SBG** (Surface Bonding Gel) is a heavy duty, liquid alkaline cleaner for cleaning a wide variety of tough soils. When diluted with water in the recommended range, a thin gel is created. This solution bonds to soils and clings to surfaces, increasing contact time over typical cleaners. This extended contact time allows Render-SBG to penetrate and react with the soils, allowing more complete soil removal. Once flushed from surfaces to

Labor Saving Application Techniques  
High reaching equipment solutions to get the product where you want it.

the floor, the foam

collapses quickly and is easily sent down drains. This increases time and water savings when compared to other foaming cleaners.

### Render-SBG Properties

- Quickly cuts through tough fats and greases
- Effectively cuts through road film and exhaust deposits
- Rinses easily and completely and is effective in both soft and hard water
- Capable aluminum brightener
- Safe, biodegradable, phosphate-free product that contains no Hydrofluoric Acids (HF), Ammonium Bifluorides (ABF), Nonylphenol Ethoxylates (NPE) or Aromatic Solvents

# Product Descriptions

## Custom Clean 4000

Custom Clean 4000 is a heavy-duty, alkaline/solvent cleaner for washing the exterior of transportation vehicles. Custom Clean 4000 penetrates and lifts the toughest soils from vehicle surfaces, yet it is safe on polished and anodized aluminum.

## D Film It Plus

D-Film It Plus is a medium-duty, alkaline cleaner for washing the exterior of transportation vehicles. This product is ideal for removing road film, bug residue and general soils from vehicle surfaces. It provides outstanding cleaning performance in automated drive-through truck washes and hot water pressure washers. D-Film It Plus does not contain SARA 313 reportables.

## Filmgon

Filmgon is a moderately alkaline, foaming cleaner for use in the vehicle washing industry. Filmgon completely removes road film without manual brushing and contains built-in inhibitors that give maximum protection to metal surfaces between washes.

## Radi Aze Plus

Radi Aze Plus is a versatile, heavy-duty cleaner designed for many cleaning jobs, including mild aluminum brightening and trailer cleaning. It can also be used as an alkaline shock treatment, with RadiAze Plus being used for the second step in the DuBois shock treatment cleaning program. This product breaks the bond that holds road film to metal and painted surfaces and keeps it in suspension, and it prevents the re-depositing of soil. Anionic detergents in Radi Aze Plus neutralize static-bound road film to allow surfaces to be effectively cleaned and rinsed free of soil.

## Reveal NP

Reveal NP is a super-concentrated cleaner that is effective in removing the toughest grease and grime on any hard surface. Reveal NP has a unique blend of grease-removing surfactants, making it ideal for foam cleaning. This product has application in many industries to include: locomotive, mining, and heavy equipment cleaning. Reveal NP does not contain SARA 313 reportables. (Contains EDTA)

## Mild or Neutral Alkaline Cleaners

### Neutra-Lift

Neutra-Lift is a multi-purpose, non-flammable neutral cleaner, ideal for cleaning a wide variety of light to heavy industrial soils. Neutra-Lift is low foaming and can be used effectively in automatic floor scrubbing machines for removing soils from concrete floors and other hard surfaces. Neutra-Lift is suitable for high pressure and steam cleaning applications, as well as manual cleaning, i.e. spray and wipe, mop and bucket cleaning, etc. It is safe on all surfaces designed for aqueous cleaning.

### Saf-T-Gleam

Saf-T-Gleam is a versatile, mildly alkaline detergent cleaner suitable for a wide range of applications. Saf-T-Gleam is used to clean the exterior and interior of vehicles as well as for general cleaning purposes. It is phosphate-free and safe for use on aluminum, soft metals and most painted surfaces.

### Stream

Stream is a premium powdered compound for cleaning painted exteriors of cars, trucks, buses, and aircrafts. It dissolves readily in cold or warm, soft or hard water. Stream is extremely effective in one-step pressure washing applications.

## Stream LP

Stream LP is a yellow, free-flowing, granular product which does not create dust. It dissolves readily in warm or cold water to give a clear, mildly alkaline solution. Stream LP is specially designed for cleaning painted exteriors of cars, trucks, buses, and aircraft. Stream LP is used to clean in one-step vehicle pressurespray wash systems.

## Stream Rig Cleaner

Stream Rig Cleaner is a phosphate-free, mildly alkaline compound designed for washing painted surfaces and equipment. It dissolves readily in warm or cold water to give a clear, colorless solution. Stream Rig Cleaner is a one-step pressure spray wash cleaner.

## Transit-Jel

**Transit-Jel** is a versatile, mild alkaline, effective cleaner that can be used to remove soils in many areas. When used as is, Transit-Jel can be used to clean in heavier industrial applications. Transit-Jel clings to vertical surfaces, ensuring intimate contact and extended cling time for tough soils. When applied through typical foam equipment at the recommended dilution, a thin gel is created. The thickened solution clings strongly to surfaces, increasing contact time over typical foam cleaners. The increased contact time allows the cleaner to penetrate and react with soils, facilitating their complete removal from surfaces.

### Key Properties:

- Highly-effective and phosphate-free
- Low foam profile makes it easier to flush cleaner residues down drains
- Non-Corrosive for easier handling

*Before*

*After*

## Acid Cleaners

### Al-Brite

Al-Brite effectively brightens aluminum trailers, rub rails, trailer decks, and prefabricated parts. Al-Brite is an effective alternative to hydrofluoric acid (HF) aluminum brighteners. In addition to its brightening properties, Al-Brite also effectively cleans off road film, petroleum-based soils, and metallic oxides of aluminum.

### Bright Test LV (Low Viscosity)

Bright Test LV is an acidic cleaning compound for use on the exterior surface of all rail vehicles. Bright Test LV effectively removes the grime and iron dust encrusted on diesel engines, cabooses, flatbeds, and other areas that have a thick buildup of iron oxide soil. This product contains no sulfuric, hydrochloric, hydrofluoric, phosphoric, or other hazardous mineral-based acids and no fluorides. Bright Test LV does not contain SARA 313 reportables.

### So-Brite Plus

So-Brite Plus is a unique blend of acids and surfactants designed for exterior vehicle cleaning. So-Brite Plus achieves the benefit of aluminum brightening without the corrosive and harmful effects of hydrofluoric acid. This product effectively brightens aluminum and removes grease, oil, rust oxidation and other soils found on heavy vehicles in the transportation, construction and mining industries.

### Transit Brite

Transit Brite is made of a unique blend of acids and surfactants specifically designed for exterior vehicle cleaning and aluminum brightening in both transportation and industrial applications. It will remove road film, diesel exhaust, petroleum soils, and metallic oxides from painted surfaces, steel, chrome, and various alloys. Transit Brite does not contain phosphates or hydrofluoric acid.

## Specialty Products

### Bug Removal

#### D-SPLAT

D-SPLAT is a bug remover designed to soften bugs for easy removal under a high pressure rinse.

# Product Descriptions

## **Brush/Mitter Lube**

### **Superl**

Superl is a thick, concentrated, high-foaming, liquid detergent specially formulated for automatic vehicle washes. It provides excellent cleaning and lubricity when applied via brushes, foam generators, or hand-mitting. Superl product produces a highly stable foam blanket and provides easy rinsing, leaving no residual film.

## **Rinse Aid**

### **Auto Dri**

Auto Dri is a concentrated cherry-scented liquid spray wax for use in the final rinse of automatic car washes to provide instant beading and rapid drying. Auto Dri leaves vehicles with a lustrous finish after cleaning.

## **Cool Dry**

Cool Dry is a premium clearcoat and/or drying agent for use in the final rinse arches. Cool Dry instantly forms very small beads of water. Cool Dry works well in cold or warm water and has a pleasant cherry scent. It can be used as a spray was as well when used at higher concentrations.

## **Dri-It C**

Dri-It C, a rinse agent, is a highly concentrated blend of wetting and penetrating agents. It is designed to reduce the surface tension of water and to increase the permeability of water-repellent surfaces.

## **Toilet Water**

### **PGS Summer**

PGS Summer is a liquid deodorant that will provide effective odor control in chemical toilets found on buses, trains, etc. It has a wide spectrum of anti-microbial properties. PGS Summer comes in ready-to-use form and in concentrate form. PGS Summer Concentrate is available in Canada only.

## **Lavo-San**

Lavo-San is intended to be used in lavatories to prevent freezing of toilet water and can be diluted to meet the desired freeze point. It is completely soluble in water and has a fresh cherry scent for odor control. Lavo-San comes ready-to-use.

## **Super San**

Super San is a liquid deodorant that will provide effective odor control in chemical toilets found on buses, trains, etc. The active ingredients in Super San quickly eliminate any objectionable odors in the chemical holding tanks. Super San has a pleasant cherry scent.

## **De-Icing**

### **Du Ice**

Du-Ice is a ready-to-use solution that can be used to melt ice and snow or to help prevent ice from forming.

## **Engine/Undercarriage Degreaser**

### **Jettacin**

Jettacin multi-purpose cleaner is a medium to heavy duty, environmentally acceptable liquid detergent. A unique blend of surfactants and emulsifying agents, plus a natural solvent, gives Jettacin its ability to break the bond of even the toughest soils. Rinsing is rapid and complete, leaving surfaces residue free. Its active solvent is FDA GRAS-listed (generally regarded as safe). This product is completely soluble in cold or hot water and is suitable for high pressure cleaning.

## **General Purpose Cleaner**

### **TREO GP**

TREO GP is a versatile, phosphate-free cleaner with excellent foaming ability. It rapidly emulsifies and penetrates tough soils. TREO GP eliminates the need for two or three detergents for different jobs.

## **Glass Cleaner**

### **C-Thru**

C-Thru is a ready-to-use, ammoniated glass cleaner formulated to clean windows, mirrors and other glass surfaces without leaving a residue. C-Thru cleans built-up grease and smoke from glass and other hard surfaces. C-Thru also comes in concentrated form.

## **Glass Protectant**

### **Durashield®**

Durashield is a breakthrough total vehicle protectant with polymer film technology and Body Armor® additive to bond longer and stronger to the vehicle's surface.

## **Wheel Protectant**

### **Rhino Guard**

Rhino Guard is a wheel protectant that uses the breakthrough technology of Body Armor® to bond longer to wheels to prevent brake dust buildup and keeps wheels clean and shiny.

## **Miscellaneous**

### **Lubrifresh 80**

Lubrifresh 80 refresher additive is a patented remedy for water-based fluids that have become rancid. It is not a biocide nor a deodorant. Lubrifresh 80 eliminates odors associated with water based fluid contaminated by anaerobic bacteria. It raises and buffers the pH of a fluid, which creates a tough living environment for anaerobic bacteria.

## **Cement Removal**

### **Conquer**

Conquer is a fast-acting, heavy-duty scale remover and will quickly dissolve years of scale buildup. This product is highly inhibited to reduce corrosion to ferrous metals and has excellent foaming and wetting properties.

## **Dica Foam**

Dica Foam is a heavy-duty, foaming acid cleaner which can be used to remove concrete, hard water scale, rust deposits, mortar and red clay stains from all types of masonry, equipment, etc. It is inhibited to reduce corrosion to ferrous metals. Dica Foam has excellent foaming and wetting properties.

## **DuJel 200**

DuJel 200 is a heavy-duty, acidic gel cleaner similar to the liquid product Conquer. DuJel 200 is a scale remover and is especially effective on removing calcium carbonate scale. It also contains corrosion inhibitors to protect ferrous metals.

# Product Descriptions

## Asphalt Release

### Poly-Slip

Poly-Slip provides effective and economical means of asphalt release. Poly-Slip is water-based and contains no petroleum distillate. This product provides excellent and uniform lubricity and is perfect for lubricating truck beds, even at high dilutions.

### Slide-All

Slide-All asphalt release agent is a stable blend of a heat-resistant organic oil and emulsifying agents. Even at a composition of 3%, Slide-All provides excellent lubricity for a variety of applications. It is also effective on polymerized/ rubberized asphalt.

## Asphalt Removal

### DuJel Citrus

(Tar and Adhesive Remover)

DuJel Citrus was formulated similar to DuJel TR, only having a pleasant citrus odor. DuJel Citrus also exhibits characteristics similar to Natra-Kleen. DuJel Citrus works well as a degreaser.

### DuJel TR

(Tar and Adhesive Remover)

DuJel TR is a heavy-duty cleaner formulated to remove tar, adhesives, oil, grease, ink, asphalt and other soils with the help of solvents. DuJel TR has characteristics similar to the liquid product ISC-24A.

### Natra-Kleen

Natra-Kleen is a one-step degreasing and deodorizing cleaner. It can be used to replace toxic solvents such as varsol, chlorinated hydrocarbons, xylenes, etc., in various industrial applications. Natra-Kleen contains naturally derived terpene solvents to effectively dissolve greasy soils and unique surfactants that enhance soil penetration and emulsification.

## DuJel Cleaners

**DuJel Cleaners** cling to vertical surfaces to achieve prolonged contact time and good soil penetration. All DuJel products are ready-to-use and do not contain SARA 313 reportable ingredients or alkyl phenol ethoxylates (APEs).

### DuJel Cleaners:

- Increase contact time
- Reduce rinse requirements
- Provide efficient usage costs
- Reduce production and equipment downtime

### Equipment Recommendations

DuJel Cleaners work best when mixed and dispensed accurately. DuBois recommends and stocks the DuJel Spray System - a specially designed dispenser for DuJel cleaners.

- 11751736 – DuJel Spray System – For use with DuJel 200
- 11751743 – DuJel C/TR Spray System – For use with DuJel Citrus and DuJel TR
